Subject: 2013 CITY OPERATING BUDGET

Presented herewith is the adopted budget for the City of Oshkosh for the 2013 fiscal year. The 2013 budget was adopted at the November 27, 2012 Council Meeting. Prior to adoption, the Council held budget work sessions on October 24th, October 25th, November 5th, and November 8th. Additionally, an online public information presentation was made available during the budget process, and a public hearing was held on November 13, 2012. Input received at the work sessions and the public meetings were taken into consideration by the Council which helped draft the final budget for adoption. The total city budget for 2013 is \$65,896,300. This includes an operations budget of \$41,268,600; a debt service budget of \$17,435,200; and an agency fund budget of \$20,400. In addition, there are levies for the Library in the amount of \$2,302,200; the Museum in the amount of \$444,700; Senior Services in the amount of \$291,800; the Grand Opera House in the amount of \$466,200; the Cemetery in the amount of \$274,800; Street Lighting in the amount of \$1,057,500; the Equipment Replacement Fund in the amount of \$1,117,800; the Leach Amphitheater in the amount of \$15,000; the Pollock Community Water Park in the amount of \$67,300.

The revenues other than property taxes are \$35,422,200, and the Council authorized replenishment of the Fund Balance due to a projected 2012 shortage of \$130,808, resulting in a levy of \$30,604,908. This results in a 2012 local tax rate of \$8.937 per \$1,000 of assessed valuation. This is an increase of \$0.141 over the 2011 local tax rate.

The amounts in the final 2013 budget as compared to the 2012 budget are as follows:

And, City staff will continue to explore new cost effective and efficient means of providing services to citizens throughout 2013. The City Council has also continued to make city infrastructure a major priority.

In conclusion, I want to again express my appreciation to the department heads for their efforts in developing a responsible budget package for the Council's consideration. I also want to extend my appreciation to Finance Director Peggy Steeno and her staff for their efforts in bringing together this fiscally responsible budget.

Mission Statement:	The purpose of this budget is to account for the portion of Public Fire Protection that is currently being collected through the tax levy/bill rather than through the Utility bill. The Proposal for 2013 is to convert this amount over to the Utility bills so that the entire charge for Public Fire Protection is collected through Utility charges. With 2013 being the transition year, \$325,000 will be charged to this fund, and anticipating a PSC rate case in early 2013, the second half of the year will be funded through the revised Utility charges.

Main Street by providing parking support to the two anchor buildings in the district; the First National Banking Building at 404 N. Main Street and the Exclusive Company Building (formerly V&S Variety) at 318 N Main Street. Creation of the TID allowed the City to acquire a property adjacent to the district and create a public parking lot (Washington Lot) that provided much needed parking support for the area that eventually resulted in the Exclusive company moving their retail operations to the facility. The district carries no debt but uses 100% of the increment to pay the City's Parking Utility that carries debt service for the project. **Mission Statement:** Links to City 1 Strategic Plan: 2 3 4 5 Significant Accomplishments: • .
