Funds were used to acquire adjacent property, remove blighted structure, and to develop a new off-street **Mission Statement:** parking lot to serve the district. Tax increment collected from the district is used to support debt service cost of the City's Parking Utility that constructed the lot. The property owner has been required to maintain a specified level of property value (\$250,000) or make a differential payment to the City to make up the difference in property value. The size of the TID is just over a third of an acre and the City invested \$180,000 to encourage redevelopment in the area.
