

*****Important Policy Update: Permit Refunds in Oshkosh*****

The Oshkosh Building Inspections Department announces an update to our permit refund policy. Effective January 1st, we will no longer offer refunds for any issued permits (Building, HVAC, Electrical, Plumbing). This decision aligns with our continuous efforts to streamline operations and ensure consistent service delivery.

This policy change ensures that trade contractors operating within the City of Oshkosh meet the same expectations as those in surrounding communities, fostering uniformity and fairness across the region. By aligning our refund policy with neighboring municipalities, we enhance regional consistency in permitting processes.

For any questions or further information, please contact our department directly.

Thank you for your understanding and cooperation.

Jerry Fabisch, Chief Building Official
