TO: Honorable Mayor and Members of the Common Council
FROM: Justin Gierach, Engineering Division Manager / City Engineer
DATE: March 3, 2022
RE: **Approve and Submit Wisconsin Department of Natural Resources
2021 Storm Water Program Annual Report**

BACKGROUND

The City of Oshkosh received coverage under the Wisconsin Department of Natural Resources (WDNR) Municipal Separate Storm Sewer System (MS4) General Permit on January 2, 2007. In May 2014, the City of Oshkosh received notification this coverage was extended to include the newly-released version of the MS4 General Permit. This permit requires the City to comply with the following six (6) minimum control measures (as mandated by the Federal Clean Water Act and the Environmental Protection Agency):

1. Public Information and Education Plan
2. Public Involvement and Participation Program
3. Illicit Discharge Detection and Elimination Program
4. Construction Site Pollutant Control Program
5. Post-Construction Storm Water Management Program
6. Pollution Prevention Program (prevent pollution from the daily operations of the City)

The Storm Water Utility Appeals Board reviewed, provided feedback, and recommended approval of the Annual Report. All feedback has been incorporated into the annual report.

ANALYSIS

The annual report contains information on the activities performed by the City of Oshkosh in compliance with the MS4 Permit requirements. All information is entered on the WDNR website through the online forms. In addition to the information requested in the online forms, a document containing supplemental information that the forms did not have room to enter was prepared and uploaded as an attachment. City staff has more details available for the WDNR, should they request to clarify any information.

FISCAL IMPACT

There is no anticipated fiscal impact from the approval of this resolution.

RECOMMENDATION

Staff recommends approval of the resolution.
